

## Rainforest by Lucas

Rainforest rainforest what have you got?

Rainforest rainforest you've got the lot!

There is so much life from the top to the floor

And so much more for us all to explore!

The birds that fly high, snakes, monkeys and cats

Big insects that crawl and even vampire bats!

When the lorries arrive what do they think?

Do they not understand they'll make wildlife extinct!

When I grow up I still want to know

That you will be there so that I can show

My children and theirs the wonders I saw

in Brazil , PNG, Madagascar and more

I'm going to write a letter to each president to say

Stop chopping down trees, that's not the way!

To enrich our existence on this planet of ours

Save fossas and lemurs and all of the flowers

Save the bald uakari, gorillas, macaws

Live side by side, or it will be no more

Save beetles and snakes and all of the cats

Save all the rainforests and this habitat.
